## ISTC news

### Booking for TCUK 2017

Online booking is now in full swing and early-bird pricing is available until 30th June. This includes an all-inclusive residential package for £620 for members and £770 for non-members. These prices will rise to £680 and £830 respectively after that date.

Early-bird day registration is £180 for members and £245 for non-members rising to £210 and £275 respectively after 30th June.

For full details, visit: [http://technicalcommunicationuk.com/?page\\_id=5152](http://technicalcommunicationuk.com/?page_id=5152).

We hope to start announcing programme details very soon, so please bookmark <http://technicalcommunicationuk.com> and check back often.

### Sponsorship opportunities

We're delighted to announce our sponsors for this year: [Adobe Technical Communication](#), [SCHEMA Group](#), [Imprimatur Ltd](#), [MadCap Software](#), [3di](#), and [Kothes! Technische Kommunikation GmbH & Co. KG](#). You can find out more about existing sponsors by visiting: [http://technicalcommunicationuk.com/?page\\_id=5550](http://technicalcommunicationuk.com/?page_id=5550).

There are a whole host of opportunities and benefits for sponsoring the leading technical communication conference. If your organisation would like to join us as a sponsor, download the information pack available at: [http://technicalcommunicationuk.com/?page\\_id=6889](http://technicalcommunicationuk.com/?page_id=6889).

Contact the ISTC office to reserve your place.

## Volunteer Opportunity – Professional Development Coordinator(s)

PROFESSIONAL  
DEVELOPMENT  
& RECOGNITION

We have plans to expand all our professional development activities, and are inviting Members and Fellows to help with the organisation of our Mentoring scheme, our CPD scheme, and other educational activities. If you have some supervisory experience and want to play a more active part in helping your professional colleagues improve their competencies, please consider taking on this role.

Time commitment: approximately 4 hours per month

For further information and to apply for this role please contact: David Farbey, Council Member for Professional Development and Recognition, email: [education@istc.org.uk](mailto:education@istc.org.uk).

## Meet Linda Robins, Head Judge of the UK Technical Communication Awards

Linda has been working in technical communication for 41 years as editor, author, manager, course developer and trainer, and is now in her 12th year of judging the awards. We interviewed Linda about her experiences within the industry and also what being a judge of the awards means to her... (Please go to <https://uktcawards.com/awards/judges/> to read the full interview).

Linda Robins

### What have been the achievements you are most proud of within scientific or technical communication?

There are four key achievements I am most proud of:

1. Developing standards for specialist manuals and implementing them company-wide.
2. Bringing in complex technical documentation projects successfully within budget and to specification.

**3di** Complexity made clear

- **Winning documentation project management solutions**

3di has the expertise to scope, resource, manage and deliver documentation projects to meet your time, budget and quality targets.

[FIND OUT MORE](#)

- [www.3di-info.com](http://www.3di-info.com)

3. Gaining recognition for the value of documentation specialists in industry; becoming recognised as an authority in effective writing.
4. Training software developers in writing principles – and seeing the results in action.

### What was your reason for getting involved with the judging process?

I am now in my 12th year of judging the awards. I was enlisted initially soon after

being co-opted onto Council. I felt that I could contribute to the process given my range of knowledge and experience. I had benefitted from guidance and expertise of ISTC members and thought I could give something back as a judge of awards entries.

I always enjoy the judging. It is so encouraging to see such high quality in such a range of genres and styles of output.

What top three tips would you give to potential entrants thinking of entering the awards?

1. Prepare your entry statement carefully to ensure that the judges can assess the success of your entry.

#### Technical Communicators

Permanent, Contract and  
Interim Vacancies

[www.cliffordsells.com](http://www.cliffordsells.com)

Technical Communication for Business  
Recruiting · Outsourcing · Consulting

Contact Mark Clifford  
call: +44 (0)1234 355522 or  
email: [info@cliffordsells.com](mailto:info@cliffordsells.com)

2. Aim to have a unique selling point to set yours apart from other entries.
3. Be thorough in your quality control; consistency and accuracy are very important.

**Are there any words of encouragement you would like to give to people who are not sure about entering an award?**

If in doubt, enter!  
We have a wide range of entries; budget and scale vary widely. Your piece will be judged on its merits.

You can use the feedback provided by the judges to help you win with your next year's entry.

#### Call for entries

The awards are the industry's key platform which recognises the value of clear, concise and effective information relating to scientific or technological products or services.

The entry deadline date is Friday June 30th 2017 and you can enter as many classes as you like, with each entry costing £25 for ISTC members and £40 for non-members. Awards will be presented during the Gala Dinner at the Technical Communication UK conference on 27th September in Nottingham's Crowne Plaza Hotel.

Full details and the online entry form are available on the awards website: [www.uktcawards.com](http://www.uktcawards.com).

Linda looks forward to receiving and judging your entry!

## “Ask Me Anything” sessions

We had Katherine Judge, Commissioning Editor of the award-winning Communicator, answering your questions in May’s “Ask Me Anything” session. The discussion was mainly focused on Communicator. You can read the full session here (if you’re an ISTC member and logged on): <http://www.istc.org.uk/our-community/discussion-forums/topic/ama-katherine-judge-of-communicator/>  
Thank you very much to Katherine and to those who contributed to the questions and discussion.

## AMA June

The June AMA will be on Monday 12 June, featuring Rob Woodgate. He is a Documentation and Knowledge Management consultant and ISTC member, with 15 years tech comm experience. He is happy for general questions on software documentation, as well as his specialty: Agile documentation, aka technical writing in Scrum teams.

If you would like to ask Rob a question, log on to the Discussion Forums section of the ISTC website on Monday 12 June. You will see a new post, introducing Rob and inviting questions. BUT in a departure from the previous AMAs, Rob will not be online during the day. Questions are invited throughout the day, and Rob will reply in the evening. If discussion extends to Tuesday (or beyond!) that’s fine.

*The UK's Leading  
Technical Communication  
Event*

**TCUK Conference**  
**26<sup>th</sup> – 28<sup>th</sup> September 2017**  
**Crowne Plaza Hotel, Nottingham**

The UK's largest annual event for technical communicators, the Technical Communication UK Conference (TCUK), will take place at the Crowne Plaza Hotel in Nottingham this year. Make sure you save the date.

Crowne Plaza Nottingham hotel offers modern rooms in buzzing central Nottingham, close to the city's main shopping and entertainment districts. See our website for further information - [www.technicalcommunicationuk.com](http://www.technicalcommunicationuk.com)

Contact the ISTC office if your company is interested in being a sponsor or exhibiting at TCUK 2017 – email Claire Kelly at [claire.kelly@admin.co.uk](mailto:claire.kelly@admin.co.uk).

[www.technicalcommunicationuk.com](http://www.technicalcommunicationuk.com)

## Volunteers wanted

Please note that this will be the last AMA for the time being. We’re very grateful for everyone who has participated, as subject, questioner, or both.

Cecily is taking a step back from the AMAs, but if anyone else wants to take over, perhaps after TCUK in the autumn, that would be welcome. You can email her at [cecily.techauthor@gmail.com](mailto:cecily.techauthor@gmail.com).

## ISTC local area and special interest groups

The ISTC area groups offer an opportunity for technical communicators to network and share knowledge and expertise. The groups are open to everyone from all industries in the local area (you don't even need to be an ISTC member to attend), and it's free. The groups meet at intervals during the year and hold talks, peer discussions, demonstrations and social evenings. Special interest groups give you an opportunity to meet people in your own industry.

### Thames Valley Area Group

*From Liz Gregory*

The next Thames Valley group meeting is going to be held on Tuesday 6th June from 7.15 at the Bird in Hand, Bath Road, Knowl Hill, Reading and the group will be discussing illustrations as instructions, e.g. Lego and Ikea leaflets.

All are welcome and you don't need to be an ISTC member. However, if you would like to attend, please register via Eventbrite here: <https://www.eventbrite.co.uk/e/istc-thames-valley-area-group-tickets-34460339804>.

The organiser for this event is Liz Gregory and she may be contacted via the istc office email: [istc@istc.org.uk](mailto:istc@istc.org.uk).

### Yorkshire Area Group

*From Emma Sheridan*

Join us for our next ISTC Yorkshire Area Group Meetup in Sheffield. Further information will be available soon.

All are welcome and you don't need to be an ISTC member. However, if you would like to attend, please register via Eventbrite here: <https://www.eventbrite.co.uk/e/istc-yorkshire-area-group-june-meet-up-sheffield-tickets-34820505068>.

If you have any questions or queries please email: [yorkshire\\_areagroup@istc.org.uk](mailto:yorkshire_areagroup@istc.org.uk).

### Hyperlinks disclaimer

The appearance of external hyperlinks does not constitute endorsement by the ISTC of the linked websites, or the information, products or services contained on those sites. All external hyperlinks were accurate and working at the time of writing. However, the ISTC does not exercise any editorial control over the information you may find at these locations, so the ISTC cannot be responsible for changes to content found at these locations or any material on those sites that may be inaccurate, misleading or offensive to you. ### Announcing MadCap Flare 2017 r2: Salesforce Integration, Top Nav Enhancements and More!

*This article was written by Jennifer Morse and appears in full on the [MadBlog](#).*

Fresh off the heels of a few dozen live demos and presentations to eager eyes at the STC Summit, I'm thrilled to share details about our latest release, MadCap Flare 2017 r2, announced earlier

this week. This new version comes packed with a number of new features and enhancements, designed to give you even greater control over how you create, manage, and deliver your content – whether it is technical documentation, policies & procedures, medical or regulatory information, and everything in between.

The technical communication and broader content development landscape is evolving – like most technology in our lives – at a rapid pace. There are changes to end-user requirements, updates to web-based standards, an ever-expanding number of mobile devices, and so on. In an effort to meet the needs of our users, MadCap Software has transitioned to an agile development cycle to ensure we're delivering multiple major releases with new features, performance

enhancements, product integration and bug fixes throughout the year.

### What's New with MadCap Flare 2017 r2

- **Salesforce Integration:** The new Salesforce Connector lets you publish Clean XHTML outputs directly to Salesforce Knowledge.
- **Google Search Using Custom Search Engine (CSE):** As an alternative to the search that is available out of the box with Flare, you can use Google Search for your HTML5 Top Navigation and skinless outputs.
- **Top Navigation Enhancements:** Added control with Fixed Headers, Fixed Topic Menus, Topic Headings in the Side Menu, and Tree Format for Slide-Out Menus.
- **Favicon Support:** Generate favicons for web-based outputs.

To learn more about all the new features and enhancements that come with MadCap Flare 2017 r2, visit the [What's New topic here](#).

## Adobe announce updates to FrameMaker and RoboHelp

Adobe have announced updates to their 2017 releases of FrameMaker and RoboHelp.

### 2017 Release of FrameMaker (Update 1)

*This post was written by Stefan Gentz and appears in full [here](#).*

The Adobe FrameMaker 2017 release has been one of the most successful releases in the history of FrameMaker. The completely re-thought and re-designed user interface with many smaller and bigger improvements, the new HTML5 based and customizable “Welcome Screen”, compatibility with high-res / high-dpi screens up to 4K, the smart command search, better image handling, the new project manager, enhanced conditional tags, enhanced DITA authoring and management, omnichannel publishing and brand-new modern and Section 508 compliant Responsive HTML5 outputs with the new predictive auto-complete search bar and much more got overwhelmingly positive reviews.

And we were very active since the launch in January. We got a lot of valuable feedback and wishes from you. We are always listening and willing to walk that extra mile to incorporate your feedback. Today, we're happy to announce the availability of the first update to 2017 release of FrameMaker.

In this important update, we have incorporated a number of enhancements and ironed out a lot of smaller glitches. I would like to extend big thanks to all those who've contributed by reporting issues and helping us improve the product.

### What's new and better

Following the list of enhancements and issues fixed in the 2017 release of FrameMaker (Update 1).

- User Interface Enhancements
- Publishing Enhancements
- Other Enhancements

A complete list of important updates and fixes is available [here](#). You can also download the FrameMaker (2017 release) Update 1 Readme PDF [here](#).

## 2017 Release of RoboHelp (Update 1)

*This post was written by Stefan Gentz and appears in full [here](#).*

We are constantly working to make Adobe RoboHelp better for you. In this Update we have included a number of improvements and fixes to make RoboHelp even better for you and the users of the content you produce with RoboHelp.

A complete list of important updates and fixes is available [here](#). You can also download the RoboHelp (2017 release) Update 1 Readme PDF [here](#).

## TWi Shortlisted in 2017 Sockies Social Media Awards

*This article was written by Siobhán Ní Chatháin and appears in full on the [TWI Blog](#).*

We put a lot of thought, time, and care into planning and implementing our social media activities. So, learning that we've been selected as finalists in the 2017 Sockies Social Media Awards feels like a great endorsement of that ongoing investment.

TWi is among the ten finalists in two categories for Small and Medium Enterprises (SMEs):

- Best Blog of an SME
- Best Use of Social Media by an SME Medium

We're particularly pleased to be shortlisted for these awards because as a business-to-business service provider, we naturally don't have the same visibility as many customer-facing services. And, besides, technical communication is a niche industry – we've written before about how it's not the most widely-recognised profession.

It would be easy to shrink away from social media – it requires a lot of time and energy, and arguably it's not core to what we do. However, we think it's worth the effort to build a strong, current online presence, that clearly articulates what we do, and engages our target audiences. And we're gratified that the Sockies judges agree with us!

### Social Media Approach

Our Business Development Manager, Emmet Kearney, outlines the TWi approach to social media:

Having a strong online presence, which obviously includes social media, is very

important to us. It helps create trust while serving as a thought leadership outlet.

We use social media to engage with our professional community. Much of the content we share is about illuminating aspects of technical communication. In any industry, it's important to stay in touch with evolving technologies and methodologies. Through social media we can share snippets of content that our audiences can conveniently access, enabling them keep track of trends, and delve deeper into topics of particular interest.

### Social Media Awards

The Sockies awards, established seven years ago, comprehensively addresses social media engagement. This year there are 26 specific categories, as well as another five general categories that are specially selected by a judging panel.

With 200 organisations having entered, the finalists include a diverse range of companies, across many industries. The headline sponsor for Sockies 2017 is SpunOut.ie a youth information website that has won multiple digital media awards. The awards ceremony takes place at the RDS Concert Hall on 25th May.

## INTRODUCING

## Industry and general news

### Dubai becomes first city to get its own Microsoft font

*This article appears in full on [BBC.co.uk](http://BBC.co.uk).*

Not content with having the world's tallest building and biggest shopping centre, Dubai has become the first city to get its own Microsoft-designed font.

The typeface comes in both Latin and Arabic script, and will be available in 23 languages.

Government bodies have been told to use it in official correspondence.

### Microsoft now uses Git and GVFS to develop Windows

*This article was written by Frederic Lardinois and appears in full on [TechCrunch](http://TechCrunch).*

Microsoft today announced that virtually all of its engineers now use the Git version control system to develop its Windows operating system. The Windows Git repository includes about 3.5 million files that weigh in at about 300GB when you check them into Git. Git, however, wasn't

built for a project of this size, so Microsoft developed the Git Virtual File System to be able to get the benefits of using Git without having to wait hours for even the simplest of Git commands to run.

The code for the Git Virtual File system is now available under the MIT license on GitHub and open for community contributions.

The move to Git took about three months. Before this, Microsoft used Source Depot to manage the Windows code, though other groups with smaller code bases also still use Team Foundation Server.

### Almost 3/4 of IoT projects failing globally: Cisco report

*This article appears in full on [Mint](http://Mint).*

Government and enterprises across the globe are rolling out Internet of Things (IoT) projects but almost three-fourths of them fail, impacted by factors like culture and leadership, according to US tech giant Cisco.

In a report, Cisco said that only 26% of the companies it surveyed have said that they have had an IoT initiative that they considered a complete success. About 60%

of IoT initiatives get stalled at the Proof of Concept (PoC) stage.

IoT refers to a network of devices and sensors connected to the Internet and data collected from these helps make business and operational decisions. For example, with IoT, street lights will automatically switch off when they sense there is no traffic on the roads and consequently save power.

"It's not for lack of trying. But there are plenty of things we can do to get more projects out of pilot and to complete success," Cisco senior vice president and general manager (IoT and applications) Rowan Trollope said in London.

The high rate of failure, however, has not dissuaded firms from investing in IoT projects. The study found 64% of those surveyed saying the learnings from stalled or failed IoT initiatives have helped accelerate their organisation's investment in IoT. The study surveyed 1,845 IT and business decision-makers engaged with IoT projects in the US, the UK, and India across industries like manufacturing, local government, retail, energy, transportation, and healthcare.

"The 'human factor' matters... Three of the four top factors behind successful

IoT projects had to do with people and relationships,” the study said. It added that respondents cited relationship between IT and the business side, partnerships and having a technology- focused culture at the organisation as key factors for success of IoT projects.

Globally, organisations are using IoT to drive improved customer satisfaction (70%), operational efficiencies (67%) and enhance product/service quality (66%).

## Blog news

*By Ginny Critcher*

Hello everyone. Here is the latest blog round up for you.

Sarah Maddox posts her summaries of sessions she attended at the STC’s annual conference:

<https://ffeathers.wordpress.com/2017/05/11/stc-summit-2017-wrapup/>.

Scott Abel over at the Content Wrangler explains what the mini virtual DITA summit (31/05/17) will include:

<http://thecontentwrangler.com/2017/05/09/may-31-dita-summit-best-practices-lessons-learned-trenches/>.

Anne Gentle, on her JustWriteClick blog, summarizes her thoughts on API documentation, continuous publishing and technical accuracy for developer documentation:

<https://justwriteclick.com/2017/05/03/uniting-api-documentation-and-code-infoq-article/>.

Cherryleaf’s Ellis Pratt posts on why breaking down the marketing and techcomm content silos isn’t as simple as it may appear:

<https://www.cherryleaf.com/blog/2017/05/breaking-marketing-techcomm-content-silos-not-simple-seems/>.

Martin Häberle looks at generation Y and how their future tech writing careers may evolve:

<https://www.k15t.com/blog/2017/05/the-millennial-future-of-techcomm>.

John Collins explores how a tech writer can influence product design:

<https://medium.com/designing-atlassian/the-undercover-designer-how-a-tech-writer-can-influence-product-design-e37a3a21f3bf>.

Do you have a blog? Let Ginny know so she can include it in her monthly review. Simply email [ginny@cherryleaf.com](mailto:ginny@cherryleaf.com).

Ginny has a background as a skilled trainer and information designer, and is responsible for the development of Cherryleaf’s training courses. In addition to her skills in information design, she has over twenty years experience in teaching and training throughout the world. She is Cherryleaf’s representative to the Institute of Scientific and Technical Communicators (ISTC).

### **InfoPlus<sup>+</sup> submission deadlines**

If you have an article or other content you want to submit for inclusion in *InfoPlus<sup>+</sup>*, please note the following:

For feature articles, press releases, affiliate news and other general content, please ensure your submission arrives by 20th of the month prior to publication. For example, in the case of a June publication, copy should arrive by 20 May. For ISTC news or event details, please ensure your submission arrives by 24th of the month prior to publication. For example, in the case of a June publication, news should arrive by 24th May. Every effort is made to ensure that *InfoPlus<sup>+</sup>* is published and distributed as early as possible in the month to which it relates. However, last-minute entries, adverts or cancellations can result in an issue being distributed up to a week into that month. Please bear this in mind when submitting time-sensitive information; especially if it concerns an event occurring in the first few days of the month.

# Training courses

If you know of a training course that will be of interest to readers, please let us know. You can send details by email to [newsletter.editor@istc.org.uk](mailto:newsletter.editor@istc.org.uk). Please try to give us plenty of notice. The deadline for receiving information for *InfoPlus*<sup>+</sup> is 24th of the month preceding publication. If you would like to promote your course or event to ISTC members, why not consider giving ISTC members a discount for courses and events listed in our newsletter. For more information, please email [istc@istc.org.uk](mailto:istc@istc.org.uk). Listings are restricted to scheduled courses that are low cost or are in some way unusual. Listings are a service to members. A listing does not imply ISTC endorsement.

Courses run by ISTC Business Affiliates that are notified to us by the deadline for inclusion in *InfoPlus*<sup>+</sup> will be listed. For others, we cannot guarantee listing if space is limited and details may be abridged.

Armada, MadCap, Eston and Cherryleaf are ISTC Business Affiliates.

## MadCap training
